LGA QualTest GmbH

Test Certificate

The LGA QualTest GmbH
A member of the LGA - Group
(LGA - a public corporation)

confirms herewith that the enterprise

Spiegelau
D-94518 Spiegelau

arranges for testing and certifying continuously the products

Kristallgläser

acc. to the conditions laid down in the general contract.
The quality criteria listed below are fully met.

Quality Characteristics	Data / Facts
1500 washing cycles	The glasses tested are extremely dishwasher safe. It is herewith confirmed that the products are dishwasher-proof. The dishwasher stability test was carried out subject to EN 12875-1 using the reference cleaning agent Type B.

Nuremberg, 20.05.2005
also includes the certificate of 20.01.2006

Test Certificate no. P 229
test report no. 715 1000

U. Schwarz
Head of Quality Control Division

G. Weibgen
Head of Technical Centre QWZ/102

THE PLATINUM GLASS PROCESS

Simultaneously, production methods and technical knowhow have a direct influence on the quality of the final product. After undergoing 1500 dishwasher cycles, Spiegelau stemware was certified as "extremely dishwasher safe" by an independent laboratory. They found no scratching, markings, loss of brilliance, foggy shadows, change in color or brilliance or build up of water chemicals and residue. Spiegelau's remarkable durability can be attributed in large part to the Platinum Glass process. As the glass goes from

its powder to its liquid stage, liquid glass is passed through platinum-lined tubes to eliminate any impurities and remove all imperfections and inconsistencies that might otherwise exist. (Platinum prevents leaching that may occur from other equipment linings.) While more expensive, this innovative use of technology proves Spiegelau's commitment to quality. The result is a "high performance" wine glass with a remarkable marriage of elegance, functionality and durability.

Brilliant clarity

Certified environmental management

Improved breakage resistance

Certified dishwasher safe

Austria

The first recorded mention of the Spiegelau factory is in the last will and testament of Erasmus Mospurger, dated 1521.

In the sixteenth century, when mirrors were popular in royal courts, the company produced fine glass mirrors, beads and decorative bottles. In 1845 the factory produced snuff bottles, which were all the rage.

In 1911 the factory was rebuilt and modernized.

HISTORY

FAR-SIGHTED SINCE THE 16TH CENTURY

From creating fine glass mirrors for the old Royal courts of Europe to manufacturing sturdy yet fine glassware for the modern-day hospitality trade, Spiegelau has a history of high-performance.

For five centuries we have laboured to combine hand craftsmanship with the latest glass-making techniques.

In 1926, owner Fritz Pretzfelder gave the company its current name – Kristallglasfabrik Spiegelau GmbH, or The Spiegelau Crystal Glass Factory.

Since 2004 Spiegelau belongs to Riedel Glass Works with its brands Spiegelau, Nachtmann and Riedel.

THE CLASS OF GLASS

QUALITY MADE IN GERMANY

To ensure an enduring quality standard, Spiegelau has a strong commitment to its production sites in Germany.

Modern technology and optimized machine made production enable Spiegelau to offer high quality products at affordable prices. We put a lot of human effort and passion into delivering the perfect product!

GLASS COMPOSITION

The degree to which a glass can offer all of these benefits depends to a great extent on the type of glass used and the characteristics of the ingredients.

Standard Glass consist of sand, lime (an alkaline earth oxide), Sodium or Potassium oxides. Spiegelau Crystal glass has the same ingredients plus a certain percentage of metaloxide. These ingredients will be melted at approx. 1500°C and in later steps formed to the desired product.

Spiegelau glasses are all made of lead free Crystal glass. The highest quality of the Crystal ingredients make the Spiegelau products more durable, dishwasher safe, break resistant and also more brilliant than other glasses made with cheaper glass compositions.

HOW TO DISTINGUISH THE CLASS OF GLASS

FINE AND LASER CUT RIM:

- elegant look
- smooth lip contact
- directs the flow of wine
- less chipping

BOWL:

- Colorless and transparent bowl
- allows wines to express their true visual characteristics

Perfect connection reduces breakage

Seamless or nearby seamless stems provide a premium tactile experience

Enforced foot for improved durability

No sharp rims and a flat base improve esthetics and stability

AUTHENTIS

IS THERE A UNIVERSAL WINE GLASS ?

RVF tested a dozen commercial wine glasses, from major producers, in search of a tasting glass capable of revealing the qualities of any wine with the same precision.

Authentis 02 The most versatile of all

Manufactured in Germany by Spiegelau, this crystal glass has great brilliance and is highly shock resistant due to its flexibility.

Slightly heavy to hold, it remains, non-the-less, an ideal choice for professionals and private consumers - especially due to its guaranteed of 1500 dishwasher cycles without breakage.

This model is the big brother of the slightly smaller Expert Tasting glass, also from Spiegelau.

At tastings, this glass performs well with virtually all wines; though some sparkling wines lose some finesse of the bubbles. As for the whites; it was with a Burgundian Chardonnay where the glass won many votes, as it presented the wine with great cleanness, both on the nose and the palate. Its size is an asset for reds such as the North Rhone, placing fruit in the front not the alcohol.

RVF's
 opinion
18
20

**Lead free
 crystal or
 crystalline
 420 ml**

Weight, grip and
 aesthetics : **8/10**

CRAFT BEER GLASSES TASTING APPROVED!

The Spiegelau Craft Beer Glasses have been approved by an expert tasting panel of master brewers and industry professionals. Focusing on beer enjoyment, members of the tasting workshop tested multiple glass shapes to find the best glass for India Pale Ale, American Wheat Beer and Stout. In the experts' opinion, the custom-shaped glasses successfully deliver the complexity of aromas on the nose while demonstrating the optimum beer texture, balance and flavor intensity on the palate.

Staying faithful to the spirit of Bavarian artisan craftsmanship, we have created these unique, functional glasses to bring out the best in complex craft beers. Like our expert tasting panel, we believe that craft beers deserve crafted glasses. Cheers! For their functional and innovative product design the Spiegelau Craft Beer Glasses have been awarded the renowned Red Dot Award in 2015.

BENEFITS OF THE RIGHT SHAPE AND PREMIUM MATERIAL

LASER CUT RIM:

Crisp, clean delivery in every sip

MOUTH OPENING:

Wide mouth allows drinker to „nose“ the beer comfortably for heightened aroma and delivers beer evenly across palate to enhance mouthfeel and harmony of sweetness and acidity

BOWL:

Slender, bowed shape amplifies hops aroma

THIN WALLS:

Maintains proper beer temperature longer

REFRESHER:

Wave-like ridges aerate beer into and out of the glass to balance flavors as you drink

GAULT & MILLAU

N°1
 „The Expert glass by Spiegelau is both efficient and affordable. It is a well sized tasting glass, which is true to the wine and enhances the pleasure of tasting.“

N°1
 „The Expert glass is number one for all red and white wines. It is superior to the INA / ISO glass in almost every respect. Very well balanced in the hand and really comfortable to use.“

CARE AND USE

IMPORTANT HINTS FOR GLASS USE

Spiegelau stemware is being used in many famous restaurants and hotels and occasionally international wine tastings. In order to guarantee maximum pleasure when tasting wine, it is important to consider the following professional hints, which we hope you will find of interest.

WHAT DO WE MEAN BY „FUNCTIONAL“ GLASSES?

Spiegelau wine glasses are specially designed in collaboration with some of the world's most respected sommeliers as well as owners of some of the world's finest restaurants. In all aspects – shape, height, diameter of the bowl, etc. – Spiegelau glasses are crafted to deliver wine at its best for the greatest possible enjoyment. Each glass's shape and size has been created with extreme attention to detail to fully enhance the character and bouquet of the wine.

FOR A PERFECT RESULT

1. Wash under warm water, detergent is not necessary

2. Place on linen to dry for the time being

3. For extra shine, steam over boiling water

4. To polish use 2 microfibre polishing cloths

5. Hold glass by base and polish

6. Use left hand to cradle the bowl and polish with your right hand

7. **NEVER** twist the base and bowl

8. Perfect result

BEVERAGES AND GLASSES

Rules when handling connoisseur glasses:

1. Filling the glass

Fill the glass only to the widest diameter of its bowl. This will ensure maximum development of the wine's bouquet, and also provide the most elegant table setting.

2. Holding the glass

The appropriately filled glass should always be held by the stem rather than the bowl, as heat from the hand could raise the wine's temperature above its optimum and negatively influence the bouquet of the wine.

3. Swirling the glass

Carefully swirling the glass allows oxygen into the wine by increasing its surface area and helps release the wine's rich, mature aroma.

4. Why and how to decant wines

To decant wine means to transfer it from its bottle to a decanter or carafe before drinking. During storage or aging, wine can develop a solid deposit or sediment at the bottom of the bottle. Decanting is an easy means of separating the sediment from the wine. Decanting also helps the wine breathe, as the greater surface diameter of the decanter lets more oxygen

reach the wine than the bottle's does. Red wines should be decanted well before serving and allowed to rest at room temperature for up to one hour to allow the wine to fully develop its bouquet.

5. Wine temperature

Before decanting and/or serving wine, please store it at appropriate temperature (red wines at 59-63 degrees F, 15°-17° C, white wines at 50-54 degrees F, 10°-12° C). The proper serving temperature enhances the quality of the wine by allowing it to fully develop its characteristic aromas and flavors.

6. Washing the glass

Glasses should always be washed carefully, preferably by hand. Because of our Platinum Glass all Spiegelau glasses are 100% dishwasher safe, but they are best cared for by avoiding harsh detergents and choosing a cool, short dishwashing cycle. To avoid detergent residue, rinse glasses thoroughly in clean water. When drying the bowl of the glass, avoid holding the glass by its stem or base as this can, in extreme cases, cause the stem to break at its narrowest point.

SIZE CHART - PACKAGING

GENERAL CONDITIONS OF SALE

LAST UPDATED APRIL 2016, PAGE 1/2

BAYERISCHE GLASWERKE GMBH,
ZACHARIAS-FRANK-STR. 7, 92660 NEUSTADT/WN

1. Scope

1.1 These General Terms and Conditions of Sale ("GTC") shall apply to all deliveries to our customer, provided that the customer is an entrepreneur. These GTC shall apply exclusively. Any general terms and conditions of the customer which contradict, supplement or deviate from these GTC shall become part of the contract only to the extent that we have explicitly approved their application.

1.2 For any customer-specific packaging of goods, a separate packaging agreement is required.

2. Conclusion of contract

2.1. Our offers are subject to change and not binding.

2.2. The ordering of goods by the customer shall be considered a binding offer to contract.

2.3 We are entitled to accept such offer to contract within two (2) weeks after we have received it. The contract will be formed only upon our written order confirmation or, in the absence of such confirmation, by delivery of the goods.

3. Delivery and passing of risk

3.1. Delivery of the goods will be made EX WORKS Incoterms 2010 our warehouse agreed for delivery from time to time. If the warehouse was not specified, we will deliver EX WORKS Incoterms 2010, Kobernausserwaldstraße 25, A-5212 Schneegattern, Austria.

3.2. If so requested by our customer, our goods will be shipped to a different destination. Save where otherwise agreed, we are entitled to determine the kind of shipment (in particular forwarding agency, shipment route, packaging) ourselves. Our goods will be shipped at our customer's expense.

3.3. If the goods are shipped to the customer at the customer's request, the risk shall pass to the customer on the goods' surrender to the person designated to carry out shipment. The customer will in particular bear the risk of breakage of our goods during shipment.

3.4. We will take out a transport insurance policy only if specifically so instructed by the customer in writing and for the account and at the expense of the customer.

3.5. We are entitled to make delivery by instalments to the extent reasonably acceptable.

3.6. If the goods are delivered on Euro pallets, our customer is obliged to ensure the documentation required to clear Euro pallets through pallet accounts and to submit such documentation to us on request.

4. Delivery period; default of delivery or acceptance

4.1. Delivery periods stated are not binding, save where they have been expressly acknowledged as being binding in our order confirmation. Delivery periods for goods which are not listed in our price books applicable from time to time ("Special Orders") always require specific and explicit agreement.

4.2. A binding delivery period starts to run on conclusion of the contract and shall be deemed to be observed if our goods are ready for collection by our customer or for shipment by expiry of the binding delivery period.

4.3. If we are unable to meet binding delivery periods due to the failure of an upstream supplier to supply us with the correct goods or to supply us in time for which are not responsible, we will inform the customer accordingly without undue delay and, at the same time, communicate the expected new delivery date. If delivery is not available even by such new delivery date, each party shall be entitled to rescind the contract – to the extent it refers to non-deliverable goods. We will refund the payments which our customer has already made with regard to the non-deliverable goods. The customer can rescind the entire contract only if the customer is not interested in partial performance.

5. Purchase for export

If our customer purchases goods for export, the customer shall assume sole responsibility for proper customs clearance. The customer shall provide proof, in appropriate form, of customs clearance if we so request.

6. Prices

6.1. Our prices are for delivery EX Works without packaging for shipment. Our prices are exclusive of statutory VAT. If VAT is payable, it will be stated separately in our invoice. In the absence of a specific agreement, packaging for shipment will be chosen by us. Our customer will be invoiced for cases, Collico containers, boxes, etc. The packaging for shipment will be charged at cost price. Where VAT is payable for the provision of packaging for shipment, it will be stated separately in our invoice.

6.2 If the goods are shipped to the customer at the customer's request, the customer will also be invoiced for the costs in this regard. (cf. section 3.2)

7. Value Packs

7.1 Packages containing complimentary goods ("Value Packs") may not be unpacked by the customer and the products contained therein may not be sold individually.

7.2 Preferential conditions on which the customer may purchase Value Packs must be passed on to the end customer at least in the same amount within the legally permissible limits.

8. IP rights and infringement of third party IP rights

8.1 The customer is entitled to use the trademarks affixed by us to the goods or their packaging or other industrial property rights to identify the unchanged and originally packaged goods. The customer acquires no rights to the trademarks or other industrial property rights thereby. The customer undertakes to refrain from any use beyond that. Any use of the trademarks, names, logos, photos, videos, or company symbols belonging to us or to Tiroler Glashütte in publications, electronic advertising (Internet), on social media pages or forms is – without exceptions – permitted only after our written consent. The customer also undertakes not to use any signs which are likely to be confused with or similar to the above, or to obtain protection for such signs in any form whatsoever. Documents such as catalogues, brochures, images, photos, videos and the like – as well as samples and designs – remain our intellectual property, or the intellectual property of Tiroler Glashütte, at all times, protected under the relevant provisions of law regarding duplication, imitation, competition, etc. The customer undertakes not to make such documents and materials available to any third party in whole or in part without our prior consent, or to use them for any purpose other than the purpose for which such documents or materials have been provided to the customer. In case no orders are placed, any and all documents and materials shall be returned to us at the expense of the customer.

8.2 The customer shall indemnify us against any third party claims which are asserted against us for an infringement of IP rights and which are based on customer requirements, and to refund any and all necessary expenses for our legal defence upon presentation of proof.

9. Rights in case of defects

9.1. As regards inspection and notification requirements, Sec. 377 of the German Commercial Code (Handelsgesetzbuch – HGB) shall apply, provided that patent defects shall be notified within ten (10) working days of receipt of our goods. Latent defects shall be notified without undue delay after discovery.

9.2 Before delivering the packed goods, we will perform random testing in accordance with DIN ISO 2859. The admissible quality limit in such testing, i.e. the upper limit for an acceptable average quality (AQL: Acceptable Quality Limit) is an AQL of up to 4.0.

9.3 The customer is aware of the fact that, for technical and material-related reasons, there may be minor deviations customary in the industry – in particular with regard to size, weight, ovalicity and/or the vertical axis as per the applicable technical drawings – among the individual items of the same series in the production of glass products which are outside our sphere of influence. Such minor deviations do not therefore constitute defects.

9.4 Due to uncertainties customary in the industry, it may happen during the production process that quantities are lower or higher than the agreed delivery quantities. Deviations of up to +/- 10 per cent are admissible in the delivery quantity. The quantity payable shall always be the quantity actually delivered.

9.5. If goods delivered are defective, we can first elect whether we prefer to make subsequent performance by remedying the defect (repair) or by supplying goods free of defects (substitute delivery).

9.6. If we elect repair, the customer shall grant us the time and opportunity required to complete the subsequent performance owed, in particular by surrendering the goods complained about for inspection. If we elect substitute delivery, the customer shall return the defective goods to us.

9.7. We will bear the expenses required for inspection and subsequent performance, including costs of transport, travel, labour, and materials, provided that a defect actually exists. If the customer's demand for remedy of a defect proves to be unjustified, we may demand from the customer a refund of expenses caused thereby.

9.8. The rights relating to defects do not exist in case of damage arising as a result of our customer not observing our, or a manufacturer's, product instructions and/or recommendations and/or instructions for processing and use or generally accepted good engineering practice.

9.9. Rights to damages or refund of futile expenses of the customer only exist as provided by section 10 of these GTC and are otherwise excluded.

10. Limitations of liability

10.1. Where liability for damages is subject to fault, our liability for damages – irrespective of the legal ground – shall in each case be limited in accordance with this section 10.

GENERAL CONDITIONS OF SALE

LAST UPDATED APRIL 2016, PAGE 2/2

BAYERISCHE GLASWERKE GMBH,
ZACHARIAS-FRANK-STR. 7, 92660 NEUSTADT/WN

10.2. Subject to section 10.3 below, we shall not be liable if and to the extent that product instructions and recommendations, in particular instructions for processing and use, are not observed by the customer, unless the customer furnishes proof that the damage would have occurred even if the product instructions and recommendations had been observed.

10.4. We will be liable to the customer without limitation for any damage caused intentionally or by gross negligence. In addition we will also be liable for simple negligence, but only a) without limitation for damage resulting from injury to life, body and/or health; b) for damage arising from a violation of a material contractual duty, or from a violation of a duty the performance of which is vital for the proper performance of the contract, and on the performance of which the customer may usually rely. In that case, however, our liability shall be limited to the foreseeable and typical damage. Our statutory liability under the mandatory provisions of the German Product Liability Act (Produkthaftungsgesetz) shall not be limited by this subsection.

10.5. In all other respects, our liability is excluded.

11. Return of goods

Any return of goods, which is not due to rights resulting from defects – requires our explicit consent. Such returns may not involve Special Orders, refined, engraved or otherwise personalised goods. The goods must be of the current collection, and in a condition as good as new and allowing resale; a return will be accepted only if the goods are in their original packaging and in the original and unopened shipment unit/master pack. Returns must be made within 30 days of receipt of our consent to the warehouse referred to in section 3.1. Return shipment will be at the customer's risk and expense. For goods returned as agreed, the invoice value of the purchase price at the time of sale will be credited, less a processing fee of 15%.

12. Reservation of title

12.1. We reserve the title to the goods sold ("Reserved Goods") until full settlement of all our present and future receivables and claims under the purchase contract and a current business relationship (including any balance claims from current account). The customer is obliged to treat the Reserved Goods with care. The customer is obliged to properly store the Reserved Goods and to take out an insurance policy for the Reserved Goods at the customer's expense to cover theft, flood, fire, water, transport and other damage.

12.2. The customer may sell Reserved Goods in the ordinary course of business, provided that the customer is not in default of payment. The customer may not, in particular, transfer or pledge the Reserved Goods by way of security.

12.3. The customer is entitled to remodel or process the Reserved Goods in the ordinary course of business. Remodelling or processing will always be on our behalf. If the Reserved Goods are processed with other items which are not our property, we acquire joint ownership in the new product in the proportion of the invoice values of the Reserved Goods (invoice amount with VAT) and the other items processed at the time of processing. 12.4. The customer hereby assigns to us its claims against its own customers resulting from the sale of the Reserved Goods as well as such claims with regard to the Reserved Goods which may arise against its own customers or third parties for other legal grounds, including any and all balance claims from current account. We hereby accept the assignment. Where we have only acquired joint ownership in a new product under section 12.3, the customer is required to assign such claim only in part, namely in the proportion of the value of the Reserved Goods to the value of the new product.

12.5. The customer is, in addition to us, authorized to collect the claim assigned to us. However, we shall not assert the claim ourselves or revoke the authorization to collect as long as the customer properly meets its payment obligations. The customer may not assign the claim to have it collected by means of factoring, either, unless the customer imposes an irrevocable obligation upon the factor to effect the payment of consideration directly to us for as long as we have claims existing against the customer.

12.6. The customer is obliged to notify us of any third party access to Reserved Goods without undue delay, and to support us in enforcing our property rights. If we so request, the customer shall disclose to us the claims assigned and their debtors and inform the debtor of the assignment. The customer shall at its expense provide us with all necessary information in this context and supply the relevant documents.

12.7. If the customer breaches the contract – in particular if the customer is in default with any payment – we are entitled to withdraw the Reserved Goods after fixing a reasonable period for the customer to perform. The transport costs arising for such withdrawal shall be borne by the customer. If we withdraw Reserved Goods, such withdrawal shall constitute a rescission from the contract. We have the right to exploit any Reserved Goods withdrawn. The proceeds from such exploitation will be set off against any amounts

which the customer owes us, after deduction of a reasonable amount for the costs of such exploitation.

12.8. If the value of the claims assigned or other security exceeds our claims to be secured by more than 10% in total, the security will be released to that extent.

13. Terms of payment

13.1. Our invoices are payable in euros. Where no special payment terms apply to certain delivery regions or purchasers pursuant to the price list as applicable from time to time, our invoices are payable

(a) within 10 calendar days of the date of the invoice, less discount of 2%; or

(b) in case of payment by means of direct debit less discount of 3%;

(c) within 30 calendar days of the date of the invoice, without any deduction. However, discount deductions are only admissible if any and all invoices due have been settled by the customer.

13.2. Each delivery by instalment shall be deemed an independent transaction for billing and payment purposes. Whether payment has been received within the periods indicated above depends on the date of receipt of such payment in our account.

13.3. For Special Orders, an advance payment of 50% is required. Special Orders can be combined with other orders to reach minimum order quantities, if applicable. Special Orders will be accepted only for complete order units.

13.4. In case of payment in any freely convertible currency other than EURO, the customer shall bear the exchange rate risk, unless otherwise agreed or evident from the price list applicable from time to time. Any bank charges shall be borne by the customer.

13.5. From the date of default, default interest of nine (9) percentage points above the base rate per annum will be charged.

13.6. If the customer is in default with regard to any payment of more than EUR 2,000 for more than 60 days, any further delivery to the customer, including deliveries based on new orders accepted in the meantime, will be suspended until settlement of the outstanding amount.

14. Creditworthiness

If, after the conclusion of the contract, we become aware of any circumstances which result in the customer's creditworthiness appearing questionable with lasting effect, we can, at our election, demand advance payment or provision of security or make delivery only against cash on delivery.

15. Setoff and assignment

15.1. The customer can only set off against our claims for payment of the purchase price where its claim proposed for setoff has been legally established by final judgement or is undisputed.

15.2. We are entitled to assign our claims against the customer to a factor company for financing purposes.

16. Choice of law and jurisdiction

16.1. These GTC and the contractual relations with the customer shall be governed by German law, excluding the provisions of the United Nations Convention on Contracts for the International Sale of Goods (CISG).

16.2. The Regional Court of Munich II (Landgericht München II), Germany, shall have exclusive jurisdiction. However, we are free to sue at the customer's registered office. Any overriding statutory provisions, in particular on exclusive jurisdiction, shall not be affected.
