Address: 21, street 401, Markarian Building, Mkalles, Beirut, Lebanon ; Beirut Phones: +961 1 694 194 ; Mobile: +961 76 444 660 ; Whatsapp: +961 79 300 308 ; Email: sales@mghotelsupplies.com

"Konkret!" "Konkret!"

The displays consist of a mixture of fibreglass and stone and therefore offer the deceptively genuine optics of concrete combined with low weight and high stability which greatly facilitates handling. The puristic flair of that system will be intensified by using glass plates. Those and other variations made of laminated plastic and slate are available on pages 52 to 63.

"Konkret!" - Distinct design for highest flexibility!

Plain lines, neutral shapes and two different colour variations put your food presentation into focus and offer a maximum of flexibility while at the same time using the available space at your buffet most effectively. Maximum reduced shapes in combination with the rough look of concrete – "Konkret!" blends in particularly well with modern architecture. "Less is more" is the motto!

The well-known light grey version has been supplemented by a dark grey version. Both variants of the displays are available in eight sizes.

A real eye-catcher is the double-walled XXL bowl in dark grey colour. The impressive diameter of 100 cm creates space for various drinks or chilled dishes (page 49).

The XXL bowl "Konkret!"

is available on page 49.

"Konkret!"

The XXL bowl in dark-grey concrete look inspires by its enormous size and the little weight. In empty state it

the hotel room or on the buffet table is put perfectly into the limelight by the transparency of the "Reef" items; carefully draped towels are also exquisitely presented in the bathroom or in the wellness area.

shapes. Many individual parts are assembled by hand to create truly extraordinary pieces of art that are reminiscent of the submarine world's coral reefs.

In the lobby or at the reception desk, which are both a hotel's hallmark, these impressive bowls guarantee lasting impressions with guests and visitors, especially when decorated with blossoms or flower bouquets.

The outside texture of the bowls differs within the series: whether smoothly rounded (page 66) or roughly structured with dark, patinated deepenings (page 67), each variant has its own charm!

The displays of the "Classy" series are available on pages 30 and 31.

interesting. Besides the presentation of bread and fruit on the buffet these bowls fascinate as sculptures or decorative elements as well. An interesting add-on to the "Fakir" bowls are round glass platters of the Zieher product range. These can be

laid on easily and generate thus the option to use the impressive objects on both sides.

All items are golden-coloured and partially dark patinated, further discolouration or oxidation is prevented reliably by the food-safe sealing of the golden parts.

available from pages 203.

The stoneware bowls "Pueblo", due to their appearance, are evocative of unique handmade pieces. The filigree body, organic shapes and the charming contrast between matt and shiny glaze award the certain something to that series.

The matt outside of the bowls generates a pleasantly soft haptic effect, shiny glazed insides are done in a stylish taupe colour.

The complete series "Pueblo" is available on page 152.

Ivory-coloured clamshells with a nacreous gloss grant these products their special appeal. In combination with crushed ice and the Zieher rechargeable LED-lights the double-walled bowls produced in mosaic-look create fascinating effects, thus becoming the eye-catcher at the buffet. The double-walled construction provides insulating characteristics. This prevents the formation of condensate on the outside of the bowls to the greatest

The stainless steel bowls of the "Shine" series are double-walled and therefore have an isolating effect. This helps to prevent water condensation - even at elevated temperatures. Cold food stays cold and warm food stays warm longer.

The slim top edge appears elegant and filigree. The accentuated contrast between the highly polished outside and the unobtrusive finish on the inside (fine brushed stainless steel, ivory and taupe coloured) makes that series an eye-catcher. "Shine" is the perfect combination of elegance and subtlety. It is easily changeable to achieve a variation of presentations and it is effective in its double-walled construction.

The trays and bowls of the "Artisan" series are fascinating and diversified at the same time. The inside with its perfectly polished surface creates an interesting contrast to the matt outside.

The handcrafted rim impresses by its irregularity and is crowned by a circumferential brass edge. The combination of hammered and plain surfaces, of massive stainless steel and brass, awards this series with that certain something.

"Artisan" is a series of contrast!

The plane surface of the trays facilitates the service and prevents unpleasant noise. When used at the buffet, arranged food can be presented in an appealing way and is accentuated by the reflection of the polished surfaces.

# **Stainless steel - refined!**

We gladly offer you buffet displays, bread baskets or cruet stands etc. with different surfaces. This option is feasible for almost all products made of stainless steel.

Highly polished as well as matt stainless steel can be refined in gold, copper or black colour in PVD refining. The products pictured on this page are parts of the Zieher range. Other items and refinements in black can be offered on demand.

- Food-safe

- Dishwasher-safe

All items made of stainless steel can be powder-coated in all current RAL colours upon request. In contrast to the PVD refining this coating is not dishwasher-safe. We will be delighted to advise you!

Price, minimum order quantity and delivery time upon request. Please ask us, we will gladly prepare an individual offer for you!

Advantages of the PVD coating

- Better strength and adherence compared to galvanic

- Brilliant colouring, colourfast and resistant against

Elegantly served and presented in style classic plate etageres, newly inspired!

Shapely and individual stands by Zieher are suitable for numerous applications. The classic plate etageres are available with three or four levels and in two sizes. Petit fours, desserts, chocolates or other delicacies are effectively presented by the classic mini format etageres.

The larger versions are perfectly suitable for scones and jam during Five O'Clock Tea, but also a choice of cold cuts, cheese or fruit can be staged elaborately on the set table. Numerous suitable inserts made of china, glass, stoneware and stainless steel are available on pages 270 and 271.

"Mercato" "Mercato"

The "Mercato" buffet baskets made of walnut are inspired by classic market boxes, but they are superior in many respects. Finger joints in the corners for maximum stability, solid walnut in modern design as well as deliberately chosen dimensions of the heights and lateral cut-outs offer numerous advantages. "Mercato" can be converted quickly and flexibly into a buffet display by the use of buffet platters. These platters (pages 52 to 61) can simply be laid on or pushed into the lateral cut-outs of the baskets (max. width 21 or 34 cm). In addition to the mere presentation of fruit or baked goods, "Mercato" is also ideal for the coffee break or for placing miniatures of any

The integrated rubber feet ensure safe standing and guarantee the stackability of the baskets. Bread, rolls and pastries remain crisp and fresh longer, as the slotted bottom plates allow sufficient air circulation. The "Solid" bed tray is a nice addition to this system. Due to its integrated, foldable feet, it can do without risers for elevated positioning. For more information on the bed tray please see page 113, for the fitting "Solid" breakfast buffet please check pages 106 to 111.

# ... attractively presented!

The presentation of bread is not only important at the table but at the breakfast buffet, too. The variety of baked goods wants to be put in the limelight.

Oblique displays for one or two wooden trays allow for a clear arrangement of various types of bread. With the help of a connector piece, two of these tray displays (item 4746) may be stacked and used on top of each other - the ideal solution for small buffet tables. A fitting cutting board including a crumb drawer and an exchangeable grate, a cutting board made of end grain wood as well as various bridges (to be found on pages 110 and 111) complete the series and provide the healthy and diversified breakfast with a new look.

Besides the flat bread tray you can also find a deeper version of that tray that is suited especially for the presentation of rolls, buns, biscuits and pastries. A removable grate provides air circulation, freshly baked buns remain scrumptious longer. Two kinds of divisions (for the tray) offer space for several miniatures (pages 263 and 264) and allow for a flexible use of the system. A cutlery insert for the deep tray as well as an insert for slices of toasted bread round off the range.

Wood from the European walnut tree, which is one of the most precious and most beautiful types of wood, forms the basis for this series. Both the wood's warm brown colours in different shades and its intensive and distinctive grain make every product a unique item!

"Solid"

Suitable miniatures in sizes 5 cm x 5 cm or 7 cm x 7 cm are available on pages 263 and 264.

More items of the "Solid" walnut series are available on pages 244 to 256. Not dishwasher-safe. Please note the attached care instructions.

# Show cooking is a popular trend!

Whether using it for catering, at events or at the hotel's own buffet, the solid wood cutting boards by Zieher are pleasing eyecatchers and offer high functionality. The matching bridges can be equipped with bowls, putting everything tidily within reach for the work behind the buffet.

The dimensions of both, cutting boards and bridges, have been chosen in such a way that exactly two boards and two bridges would fit into a regular transportation box. This is extremely useful when it comes to storing the items for their daily use and transportation for catering purposes.

The Zieher cutting boards are oiled. The use of the cutting boards naturally wears down their surfaces. In case of smaller abrasions, rub down the surface with a thin layer of vegetable oil or special care oil for wooden kitchen countertops to refresh the surface.

The removable grate for the bread cutting board (item 4733) can be ordered separately as a spare part (item 4733.R). The above mentioned items are not dishwasher-safe. Please check the enclosed leaflet for detailed care

# "Connect!"

# Serving platters made of walnut!

everyday wear and tear.

Sublime in their appearance, unadorned in design, practical by compact formats and highly functional in combination - the solid wood boards of the series "Connect!" convince as a snack board, serving and cutting board, or as a presentation platter created by the combination of several elements. "Connect!" is an extremely versatile tool for everyday use. The integrated tenon in the shape of a dovetail serves as a decorative handle with an artisanal touch. Suitable cutouts at the underside allow an easy combination of different elements. Skid-proof positioning feet ensure a firm stand, the slanted outer edges facilitate handling. The solid walnut wood is sealed with high-quality oils which makes it easy to freshen up the surface from traces of

The roomservice tray as well as the new bed tray with feet stand out due to the precious walnut which is incorporated into these products with high-quality craftsmanship. The recessed longside enables comfortable dining directly off the tray. The retractable feet of the bed tray have been constructed in a very stable way and are securely kept in position by integrated magnets when folded in. The tray also cuts a good figure on the buffet. The

positioning feet make it possible to dispense with the use of displays for heightened placing. A speedy set-up and flexible handling facilitate daily operations.

119 Design: Itamar Harari

"Move" sets your buffet into motion!

Front-cooking requires fast and fluent processes. Every buffet will stay neat and tidy with Zieher's shapely sliding system "Move".

The cook (or pastry cook) is able to equip the buffet with new portions from the back and the guests are able to help themselves from the front. There are no empty surfaces, no waiting for supplies and no obstruction of the guests - this is what "Move" is offering you.

The design originates from Tobias Greissing (www.greissing-design.de), whereas the underlying idea was developed by Pâtisserie Walter (www.patisserie.de). In cooperation with Zieher the system was made ready for the market. "Move" allows you unproblematic handling and provides your quests with a tidy and constantly filled buffet!

With three different "Move" dishes made of china featuring three different depths, food can be put directly onto these dishes or may be served in other small bowls/glasses that are presented in the "Move" dishes.

The rails are made of highquality stainless steel and offer space for up to six bowls/ plates. Furthermore, thanks to their length of 75 cm, they can be placed ideally on almost every buffet and their slipresistant bases made of plastics quarantee safe stability.

Design: Tobias Greissing (www.greissing-design.de) Food: Pâtisserie Walter (www.patisserie.de)

The melamine tray "Slope" is characterised by its unobtrusive shaping and the pleasant feel of the matt and finely structured surface. An elevated corner and the resultant asymmetry award the tray that certain something.

Besides the obvious function as a service tray for espresso, cocktails, snacks and more it also performs well in the hotel bathroom or as a decorative trivet in the hotel room.

"Slope" is available in a black and a white version and in two sizes. The robust raw material melamine appears very elegant due to its matt surface and of course it complies with demands of everyday use like food safety, dishwasher

# Non-slip covers in matt black: **Classy look - great benefit!**

In connection with the trays made of walnut, the matt black look and the velvety texture, these mats create an interesting contrast. In combination with the "Modul" melamine trays, they become almost invisible.

The mats made of food-safe silicone are extremely skid-proof and facilitate the serving considerably. No clattering, no shifting of porcelain bothers guests and staff!

To clean the mats, please use a moist cloth with some detergent and wipe off with a cloth and clear water.

The sizes of the mats perfectly fit the walnut trays items 4721, 4722 and 4723. With a sharp cutter knife the mats can be adjusted in size to fit the same sized melamine trays items 4581, 4582 and 4583. We recommend the use of a cutting board and a steel ruler.

silicone, black, temperature resistant (-40 °C -+230 °C), food-safe, for walnut trays "Modul" items 4721, 4722 and 4723, can be cut to fit melamine trays "Modul" items 4581, 4582 and 4583

# "Modul" - walnut

Wood from the European walnut tree, which is one of the most precious and most beautiful types of wood, forms the basis for this series. Both the wood's warm brown colours in different shades and its intensive and distinctive grain make every product a unique item. The high-quality workmanship in combination with the food-safe sealing guarantees long durability, even in everyday use.

# "Modul" - walnut

- European walnut
- Warm shades of brown with vivid grain
- High-quality workmanship
- Finger-groove on the bottom side guarantees safe and simple handling

Suitable inserts for the bridge

# "Modul" - melamine

The advantages of melamine are manifold. It is dishwasher-safe and food-safe, which becomes evident in daily catering use! The smallest tray is 53 cm long and is therefore partially compatible with existing GN-systems. All trays are stackable.

Besides the merely technical properties, the flat black trays differ from the variant made of walnut by their modest design and comfortable haptic.

The buffet systems by Zieher were developed to put the most exquisite products in the limelight in a very effective and diversified way.

The section "displays" shows that they are not limited to the use with food: high-class jewellery and watches, as well as other kinds of luxury goods find a representative stage with the Zieher display systems.

The discreet and classy design never pushes for attention but offers a unique and distinctive means of presentation that puts the product at the centre of attention.

| I x w x h in cm 4772.33PB 33.5x22.5x7

The new variants of the "Donna" pillows are made of frosted glass and oiled walnut and despite their hard and massive raw materials they surprises by their pleasantly soft and velvety feel.

One just has to touch the softly curved forms of this hand charmer. The version made of solid walnut, one of the finest European types of wood, has its own appearance. The sealing with oils emphasizes the striking grain of the wood and gives the surface a silk-matt gloss as well as amazing haptics. Whether used as a fruit bowl, as a place to keep accessories or as sculptural decoration - "Donna" seduces in every material!

# The primary design element of the series "Cuspis" is a glass ball studded with fine spikes. The cloches with fitting porcelain plateau plates/bowls are available in three sizes and the inspiration for their shaping was derived from the nut of the oak tree. The star-shaped handle is located at the top of the cloches and allows for an uncomplicated handling of these classy covers. The unglazed outside of the porcelain bowls is reminiscent of acorn caps. The bowls can be used on both

move closer to the guest. Used as a bowl, it offers space for gravies, sauces and more while the filigree glass cloche protects the presented delicacies and puts them in the limelight at the same time. Shapely amuse-gueule spoons as well as an extraordinary honey spoon, which can also be used as a skewer, complete the "Cuspis" series. These items are available on page 212.

"Cuspis"

If the item is used upside down as a plate, the two rings on the plate's underside can be used to separate the prepared dish into different sections and the cloches of the "Cuspis" series may also be used with it (4940.10 on the inner ring, 4940.25 on the outer ring).

The honey spoon "Cuspis", here used as

"DressCoat" was created by the glass and porcelain designer Nadine Podewski. The elegant language of design is reminiscent of set tables, the creation of the plates and bowls respectively is characterised by the apparently free falling drapery of table cloth. This creates a seemingly weightless, almost floating effect.

The slightly concave shaped surface offers space for artful decorated dishes and reliably avoids the sloshing of sauce.

"DressCoat" is available in five different sizes. Besides the main application as a plateau plate each item can also be used as a bowl. The falling folds add up to an exciting game of shapes - in particular if used as a bowl.

With "DressCoat" you will dish up delicacies!

The stoneware series "Pueblo", due to its appearance, is reminiscent of unique handmade pieces. The filigree body, organic shapes and the charming contrast between matt and shiny glaze awards the certain something to that series.

The matt outside of the plates and bowls generates a pleasantly soft haptic effect, shiny glazed insides are done in a slightly shaded white or stylish taupe colour, depending on the product. "Pueblo" can be used at a set table but also in the buffet area and adds a natural and unobtrusive quality to the dishes.

Aside from being decorative elements, the nubs on the surface of the "Dots" plate are a simple and functional means to place safely miniatures made of glass and porcelain.

The separation of liquid and solid, hot and cold food can be realized in an easy and visually appealing way.

No matter if it is used for sushi, desserts or Fine Dining, "Dots" is ideal for lots of applications!

"Collina" provides almost unlimited possibilities. Whether in the lobby or on the buffet, for the presentation of fruit and pastry or as an exclusively decorative element, this series is versatile. The smaller version of the plate, which is divided into nine parts, is perfectly suitable for various antipasti and delicacies from the patisserie. A selection of fruit can be put in the limelight beautifully by using platters with either three or four deepenings.

The possibilities when considering private use are numerous, too. "Collina" may be used as a fruit bowl, but it is also suitable as a means to neatly organize objects of everyday life, such as the mobile phone or keys.

In order to protect the sensitive surfaces of furniture, every plate comes with feet made of rubber, which can be stuck on if needed. The rigorously geometrical structure permits the assembling of several plates which allows to enlarge the platter in both - length and width. When looking at the surface from the side, the arrangement has the appearance of a desert landscape arbitrarily formed by the wind.

presentation of high-quality foodstuffs. Two flat plates and one deep plate convince by their fine porcelain body and the reduced design, which has been taken from a sphere in all parts. In addition to the plain white version, the biggest plate is also available with two decors. The black decor "free" has a modern and playful aspect, the white decor "geo" is the classic, reserved variant. Whatever the use, "Plat de Luxe" convinces everywhere – in the gourmet restaurant as well as in conventional catering.

The black glass trays are available on page 276.

The delicate handle of the "Duo" duet's organically-shaped bowl literally penetrates the saucer. Both parts thus melt into a unity of form and function. Taken individually, the saucer creates a perfect space for the presentation of amuse gueule, tapas or antipasti variations. The small opening in the handle leaves space for decorative accents.

# SELECTION A.

SelectionA. gives creative chefs the opportunity to present their food in many different ways in order to leave a mark with their guests both by taste and looks. The dish moves closer to the guest and single parts almost seem to be floating freely in the room. The diversity of variations of this series, when combined with other items, is nearly unlimited.

The series consists of different plates and bowls made of porcelain and glass. So-called "dinner plates" are available in two versions which can be used on their own or in combination with various attachments. These form the basis of the system. Shapely rings made of silicone available in two sizes, in black or white, allow for a piling of different accessories and are completely slip-proof. Surfaces are matt structured and form an interesting contrast to the porcelain's shiny gloss. These pieces can be consciously used as design elements or, as well, be assembled almost invisibly. There are no limits to the chef's imagination.

A third ring outside the series (page 224) has been designed to hold test-tubes, the ribbed surface structure ensuring easy insertion of the tubes.

can also be used as a napkin ring.

"Flow"

The "Flow" series permits a variety of new creative potential to the chef, a possibility to present different elements in a new and perfect way. Since it comes in three sizes, the tubes can be applied in any part of the kitchen: The small "Sauce Flow" is especially suited for presenting sauces during the main course or entrée. The "Soup Flow" is extraordinarily interesting when serving soup in transparent glass either standing or flowing with some puree acting as sealing. It is possible to present liquids in layers which can be released either by service staff or the guests themselves. That way liquid food can be set up in a very stylish way, separated from any crispy food. With salad designed as biosphere or a vegetable skyscraper - there is no limit to your imagination except the edge of the plate.

The glass tubes "Flow" are available in three sizes and made of high-quality borosilicate glass which stands out due to its hardness and high temperature

Ivory-coloured, nacreous gloss grants these products their special appeal. Genuine clamshells are grinded razor-thin and embedded in robust resin. This process protects and stabilizes the delicate clamshell-wafers in the long term. The transparent resin creates an impressive depth effect and classy shine on every item of the "Capiz" series. This especially applies to the structured surfaces and shoulders of the dinner plates. These plates with their radially structured shoulders are available in the light version as well as in the trend colour taupe.

The filigree but extremely strong plates made of imbued glass inspire by their exceptional look and the reduced design. Wide rims put skilfully arranged dishes into the focus of events, the irregular surface of the deep and flat plates is reminiscent of elaborate handicraft and bestows an extravagant character on the series.

The glass cloches, which are available in 10 sizes (diameters 5 cm to 30 cm, pages 189 to 193), delight by their high quality and unusual form! The presentation of fine truffles, an exclusive choice of cheese or simply a single praline – there is a fitting size for each purpose!

The lightweight cloches by Zieher are heat resistant, dishwasher safe and very easy to handle for the guests. Each item is manufactured by hand and therefore shaped individually.

The raw material for these items is borosilicate glass which is mainly used for laboratory dishes. Its main features are a great resistance against heat and changes in temperature as well as a high break resistance. A wine cooler of the same design is available on page 23.

# Making precious materials more precious - whether it is glass or china ...

# "gold"

# ... everything is possible!

Large-scale coatings on glass and china in precious colours enrich every dining table and create luxurious accents!

In order to achieve this decorative style, available in gold, platinum and bronze, the precious metals are burnt onto the varnish at more than 880 °C and as a result the coating is dishwasher-safe.

Cloches made of glass can now be used for serving warm dishes as well and condensing water remains invisible to a great part.

By using resistant precious alloys we obtain a connection to the varnish which is strong enough for the products to become dishwasher-safe. Test series by the "Institut für Werkstoffe Heraeus Precious Metals GmbH & Co. KG" have proven the dishwasher resistance of the décor.

Partially, the possibilities of coating are dependent on the form of the product. Requests are being tested in each case according to their feasibility.

The bronze colour is a special case since it presents itself in numerous interesting shades of colour. Depending on the shape of the product, especially when looking at immersions, the colours can vary from gold-bronze shades to blue-violet ones which blend into each other and create unique effects.

Since the products are refined in Germany, specific patterns/orders are usually executed quickly.

Please do not hesitate to send us your special request!

Please note:

Products are dishwasher-resistant. Please take note of the instructions given by dishwasher producers and detergents to avoid damage.

# Since the coatings are made of precious metals, the use of microwaves is not recommended under any circumstances.

The filigree champagne flute "Vaganza" is handblown and created in superior handicraft by experienced glassblowers. The result of this work is a crystal glass of highest craftsmanship. "Vaganza" captivates by its slim silhouette and elegant shape that bestows an exclusive character on the glass. The versions coated in gold or platinum fascinate with brilliant colours and the luxurious appearance of the applied decors. "Vaganza" seduces by its charming lightness and adds a touch of high society to any event.

# "YOU HAVE NEVER SEEN WINE LIKE THIS!"

"My whole team and I myself are convinced that the beautiful glasses of the VISION series represent a new league of wine glasses. We also receive a lot of positive feedback from our guests."

# - GÜNTER SEEGER, NEW YORK

The restaurant "Guenter Seeger" in New York City has been awarded multiple times by: Michelin Star and James Beard Award.

# www.gunterseegerny.com

"From the very beginning we have been excited by the appearance and the design of the glasses. But after the first degustation we have been ethusiastic! We did not want to stop tasting. The wine simply gains a different character. The BALANCE glass makes decanting superfluous - and a Grappa out of the RICH glass is simply a great experience!"

# - THOMAS DÖTZER, BAYREUTH, GERMANY

Top chef at Bayreuth, food stylist, wine expert and entrepreneur

# www.doetzers.de

"I realized in the very first moment, when taking the first sips out of these glasses, that the VISION glasses are something very special. The glasses appear distinctively light and precious and are a real eyecatcher, but this is of minor importance to me. The crucial point is that even the taste of the best wine can be enhanced by drinking it out of the proper VISION glass."

# - HERMANN PFLAUM, PEGNITZ, GERMANY

Franconian top chef and author of cooking books, founder of the legendary "Pflaums Posthotel", Pegnitz, co-founder of the novelle cuisine and of the "German Academy for Culinary Studies".

#### The Life and Work of Silvio Nitzsche

"Of course, there is life without wine, but who wants that?"

During a career as a sommelier, which has spanned more than twenty years, Silvio Nitzsche has looked after both guests and wine in some of the best Michelin-starred restaurants.

Some of his high-profile positions have been:

- Sommelier at "Dieter Müller Restaurant" (19.5 GM, \*\*\* Michelin),
   Bergisch Gladbach / GER
- Sommelier at "Erna's Elderberry House", Oakhurst / CA, USA
- Assistant Restaurant Manager and Sommelier at "Speisemeisterei"
   Restaurant (18 GM, \*\* Michelin), Stuttgart / GER

Silvio Nitzsche has now found a new home in the city of Dresden, where he has worked as a sommelier for almost ten years. At the WEIN I KULTUR I BAR that he opened there, he and his team have managed to establish a wine bar that many wine enthusiasts consider to be one of the best in Europe. He has succeeded in creating a place where wine is a permanent feature.

www.weinkulturbar.de

### Filigree Craftsmanship meets Innovative Design

"Zieher glasses are all about top quality craftsmanship, which is created in one of the most innovative and best glass blowing workshops in the world. Each glass is unique and has been created from lead-free crystalline glass using a traditional glass-blowing method.

As well as having a perfect, highly sophisticated and fascinating design, the glasses in the VISION range are guaranteed to provide maximum aroma and optimum development of the wine. However, it is particularly the fascination of the light, the colours and the visual depth that make it impossible to tear your eyes away from the glass, because: You have never seen wine like this!"

#### The Vision

"No distinction is made between red wine or white wine glasses in this collection, the glasses are simply theme-based or character-based. The names of the glasses clearly explain what they are used for: You intuitively reach for the glass which in the best way presents the flavours of the wine that you particularly wish to emphasise. If you want a powerful wine to be more harmonious or a touch more lively and fresh, you pick the glass with the designation that mirrors your requirement best."

Silvio Nitzsche

204 205

# The Zieher Food - VISION

The series VISION is predestined for wine and has been created to perfectly represent its different facets. In addition to this, the glasses offer an extraordinary platform for small delicacies or complimentary dishes from the chef. The harmonic wavy shape of the bottom creates an eve-catching ring when filled with spume or liquids. The depression in its centre provides space for amuse bouche or decorative highlights.

For distributors: Sample case VISION item 5661.01. We will be happy to inform you!

"The decanter "Eddy "defines the world of extreme wine instruments in a completely new way. Outstanding functionality combined with a language of design on an aesthetic level, which has seldom been achieved for wine instruments in such a fascinating way. It is amazing which matchlessly fastpaced development of structure each wine, no matter if red, white or rosé, experiences in this respirator. Once rotating in this texture stimulator, the wine – within seconds - runs through a development, which leads to an oxidation reaction of several hours, due to the thousandfold swirls at the conical indentations."

Silvio Nitzsche - WEIN | KULTUR | BAR - Dresden, Germany

As opposed to most of the decanters available on the market, the raw material of this development aid worker for wine is not crystal glass, but high-grade and robust borosilicate glass. This type of glass, which stands out due to its dense structure, extraordinary transparency and hardness, was the precondition for the implementation of the introversive swirl elements. In an interplay with light and the contained wine, they create also visually interesting colour reflections and formal, almost graphic effects. The volume of this respirator has been dimensioned in a way that, with a filling of up to 1.5 litres, the extension of the wine's surface becomes as large as possible. Due to the complanate bottom the decanter stands safely and straight, the enclosed base made of finely structured matt black silicone also allows an inclined positioning.

# ... with the non-slip pads by Zieher!

The coasters made of food safe silicone are shapely accessories with a highly practical benefit. Clattering and wildly sliding miniatures on plates and trays are a thing of the past.

> The skid-proof discs with their delicately structured, matt surface facilitate the service's work and ensure undisturbed enjoyment for the guest.

The coasters are available in two colours and diameters (Ø 5 and Ø 7 cm); the white ones can be integrated discreetly, whereas the black ones can be used deliberately as contrasting, decorative elements.

## Borosilicate glass in its most beautiful shape!

"Cuspis"

The primary design element of the series "Cuspis" is a glass ball studded with fine spikes. The cloches with a fitting porcelain plateau plate/mini bowl are available in three sizes and the inspiration for their shaping was derived from the nut of the oak tree. The star-shaped handle is located at the top of the cloches and allows for an uncomplicated handling of these classy covers. The unglazed outside of the porcelain bowls is reminiscent of acorn caps. The bowls can be used on both sides. When used as a plateau plate, the dishes move closer to the guest, while the filigree glass cloche protects the presented delicacies and puts them in the limelight at the same time. Used as a bowl, it offers space for

gravies, sauces and more. Amuse-bouches and any kind of finger food can be served on the series' shapely amuse gueule spoons. In this case the glass ball serves as a secure handle. The capacity of the spoons is sufficient for a usage with sauces or dips on the plate, but also at the breakfast buffet for jam and the like.

Design: Michael Schwarzmüller

#### cloche with plateau plate/small bowl "Cuspis" set consists of:

## Braving the gap!

Perforated walls, irregularly spread openings in filligree borosilicate glass – the small bowls of the series "Lacuna" stand out. Numerous holes in different sizes form the basis for sophisticated presentations of high-grade dishes. They set limits on the one hand, however offer various possibilities for creative arrangements and an extraordinary food presentation on the other.

The glass cone can be employed in three different ways. Rested horizontally and stabilized by a fork or a spoon, standing upright in various miniatures or put in elegant supports made of silicone or as an extraordinary cloche for the presentation of delicate tidbits.

Suitable accessories like anti-slip coasters made of food safe silicone or borosilicate glass straws enormously extend the scope of application of that series. Even working with small skewers for finger food may be envisaged.

Glass designer Michael Schwarzmüller puts delicious appetizers perfectly into focus. The filigree jars with their organic form offer top chefs and professional hosts the possibility of serving fingerfood and amuse bouche in an "Amuse"-ing way. "Amuse" wants to inspire imagination and stimulates

playful experimentation. This series made of thin-walled, strong and heat-resistant borosilicate glass comprises of a variation of beautifully handcrafted cups, bowls, cloches and remarkable glass tins. The latter are perfectly suitable for the presentation of small soups and desserts, but may also be used as exceptional sugar bowls. The exact fitting lid ensures the protection and hygiene of the content. The double-walled bowls of the series in fact absorb heat or cold.

# "Cave"

Like the shell hides the pearl, the porcelain bowl "Cave" conceals precious delicacies within its hard shell. At first sight this porcelain piece only partly reveals its interior. "Cave" consists of intricately worked hard porcelain and captures by its soft shape and the velvety haptics of the unglazed outside. Touching the

cave-shaped bowl it feels almost like a palm stone made of white gold, having a soft appearance with delicious contents. "Cave" is predestined for a use at cocktail and hors d'oeuvres receptions or at the flying buffet. The miniature bowl can be carried comfortably and fits perfectly in the palm of the hand.

**Slate** is a unique and exceptional natural product. The surfaces of our slate plates have the typical slaty cleavages, therefore every piece is unique. Small devia- (please order separately) tions in structure, thickness and weight of the plates cannot be avoided because of the nature of the product. There may be single inclusions of other minerals and fossils. These extraordinary features give slate its precious and vivid appearance. Please note: Specific groceries, especially those that contain fruit acid (citric acid), may damage the surface in case of longer contact. Therefore we recommend avoiding direct contact with edibles.

Marble is a natural product, which means that the dark brown marbling can vary strongly. This is exactly what creates the vivid and unique look of this natural stone. Please note: Specific groceries, especially those that contain fruit acid (citric acid), may damage the surface in case of longer contact. Therefore we recommend avoiding direct contact with edibles.

Cleaning: Please clean only with a wet cloth and gentle cleaners. Not dishwasher-safe. Cleaning in a dishwasher may dull the surface.

Granite is a natural product. Deviations in colour or structure are possible. Infrequently, pockets in the stone may occur. Granite is the hardest and most impervious kind of our natural stones!

Sushi trays made of granite are available on page 180, a bowl on page 241.

Delicacies in delicate setting presentation boxes made by Zieher!

Due to the comprehensive range of accessories the small-sized box offers multiple application possibilities. The box, regularly fitted with a wooden sliding lid, can be equipped with several optionally available inserts made of top-quality solid surface material. The also available lid made of 4 insert for cigars brown-tinted glass puts the presented

goods in the limelight. Apart from an insert with round cavities for nine truffles/chocolates and a flat plate that can be used for layered chocolates, various little somethings or amuse bouches, there is also an insert available for commercial coffee capsules.

The insert for cigars can hold up to four cigars and a separate compartment aside offers additional space for matches, cigar cutters, etc. No matter if it is an assortment of coffee specialities or various delicacies of the pâtisserie, the presentation box by Zieher provides the perfect setting

for many purposes.

#### Marco D'Andrea:

"In search of the perfect way to present my chocolates/truffles and after receiving manifold inspiration from colleagues, I have asked a carpenter of my acquaintances to manufacture some first prototypes. It was important to me that the box could be used to present jewellery and diamonds as well.

In addition to our petit fours trolley we used the prototypes in our gourmet restaurant; in our restaurant "Deck 7" we sell the chocolates/truffles along with the coffee. The round

box is inclined, the truffles will not roll out. Chocolates/truffles with a diameter ranging from 22 to 28 mm fit easily into the deepenings. The dark wood of the walnut tree gives the box a fine and modern look. The brown tinted glass yields the secrets hidden inside the box only once it is given a very close look. The glass can be inserted vertically into the back part of the box or can be slid in under the box. Once closed, anything inside the box can be stored hygienically. The narrow, sidelong compartment in each box can be used individually. Besides placing a tong or other serving cutlery, it

## The most exquisite chocolates/truffles in exclusive ambiance

Finest creations of the pâtisserie have to be presented in a worthy frame!

Idea and design for these presentation boxes "Solid" for truffles and filled chocolates are from Marco D'Andrea, pâtissier and "Junger Wilder 2012". With this most coveted award Marco D'Andrea has been acknowledged for his creative work.

In the year 2014 D'Andrea has been proclaimed "Pâtissier of the year 2014" during the "Leaders of the Year" convention (powered by ROLLING PIN).

Marco D'Andrea has visited the Zieher booth at the Salzburg fair after he won the challenge of "Die jungen Wilden 2012", to present his filled chocolates and truffles in Zieher products. He happened to have with him the prototypes of his chocolate/truffle boxes, and everyone at the stand immediately realized that these boxes would fit perfectly into the Zieher portfolio. After some small improvements in construction and quality, the first Zieher boxes had been presented in 2013 already. The wood of the walnut tree has been chosen for this box, as it had been for the "Solid" series already.

# "Solid" - Wood in its most beautiful shape!

Wood from the European walnut tree, which is one of the most precious and most beautiful types of wood, forms the basis for this series. Both the wood's warm brown colours in different shades and its intensive and distinctive grain make every product a unique item. The high-quality workmanship in combination with the food-safe sealing guarantees long durability, even in daily use.

Please note the enclosed care instructions, not dishwasher-safe, do not immerse in water!

The bread buffet "Solid" is available on pages 106 to 111.

#### cutlery/napkin box "Solid"

walnut, food-safe sealed, not dishwasher-safe, with rubber feet in the lid (soft closure, can be opened to an angle of 90°) and at the bottom, with black felt insert, stainless steel platter with space for an engraving (price and quantity upon request), 15.5 cm height with opened lid

maple

(custom built)

Sublime in their appearance, unadorned in design, practical by compact formats and highly functional in combination - the solid wood boards of the series "Connect!" convince as a snack board, serving or cutting board,

or as a presentation platter created by the combination of several elements.

"Connect!" is an extremely versatile tool for everyday use. The integrated tenon in the shape of a dovetail serves as a decorative handle with an artisanal touch. Suitable cutouts at the underside allow an easy combination of different elements. Skid-proof positioning feet ensure a firm stand, the slanted outer edges facilitate handling.

The solid walnut wood is sealed with high-quality oils which makes it easy to freshen up the surface from traces of everyday wear and tear.

Massive brass produced in traditional sand casting creates unique sculptural items, which enthuse especially by their contrast between matt golden surfaces and dark patination.

A perfect add-on to the "Fakir" bowls are round glass platters of the Zieher product range. These can be laid on easily and generate thus the option to use the impressive objects on both sides.

Please note: the items made of brass are suitable for cold/dry food only.

Not dishwasher-safe.

#### tray "Capiz"

shell, ivory-coloured, resin-coated, square, not dishwasher-safe

	item	l x w x h in cm
ı	7103.20	20x20x2
ı	7103.26	26x26x2

Genuine clamshells are grinded razor-thin and embedded in

robust resin. This process protects and stabilizes the delicate clamshell-wafers in the long term. The transparent resin creates an impressive depth effect and a classy shine on every item of the "Capiz" series.

Please note: the items made of resin coated shells are suitable for cold/dry food only. Not dishwasher-safe.

"Capiz"

"Slope"

259

The melamine tray "Slope" is characterised by its unobtrusive shape and the pleasant feel of the matt and finely structured surface. An elevated corner and the resultant asymmetry awards the tray that certain something. Besides the obvious function as a service tray for espresso, cocktails, snacks and more it, also performs well in the hotel bathroom or as a decorative trivet in the hotel room. "Slope" is available in a black and a white version and in two sizes.
The robust raw material melamine appears very elegant due to its
matt surface and of course it complies with demands of everyday use like food safety, dishwasher resistance as well as stackability.

### power supply

for LED tealight set, up to 4 LED tealight sets (total of 48 candles) can be connected using 1 power supply only

ıtem	version
a)8132.EU	Europe
b)8132.UK	UK
c)8132.US	USA

The LED-candles, in combination with different fitting Zieher tealight holders, turn every table into a homelike place for romantic hours.

The power supplies, which are available separately, optionally with EU-, UK- or US-plug, guarantee a worldwide operation of the LED set. Due to the induction charging mechanism, the LED-candles do not have any electrical contacts. This and their water resistance (not waterproof) make them ideal for outdoor use. Each tealight candle is equipped with a yellow shining LED and by skilfully switching between bright and dark, it achieves a deceptively real candle flickering effect. The rechargeable battery, which is integrated in the LED-candle, assures a lighting time of 20 hours with a charging time of about 8 - 9 hours and a lifetime of more than 500 charging cycles (this equates about 10.000 operating hours). The induction charging base, which is included in the set (item 8130), allows the charging of up to 12 LED-candles at the same time. Another plus is the integrated plug connection which allows to connect up to 4 charging bases to one single power supply. This enables the charging of up to 48 LED-candles with one electrical socket at the same time. One set (item 8130) includes 12 LEDcandles and 1 induction charging base. The respective power supply (item 8132. EU/UK/US) needs to be ordered separately.

# Bring the romantic atmosphere of candles to your own table - via modern LED technology!

# **Breakfast in bed - Inroom dining!**

The roomservice tray as well as the new bed tray stand out due to the precious walnut which is incorporated into these products with high-quality craftsmanship. The recessed longside enables comfortable dining directly off the tray. The retractable feet of the bed tray have been constructed in a very stable way and are securely kept in position by integrated magnets when folded in. The height of the erected tray has been chosen in a way that even with soft mattresses a comfortable seating beneath the tray is guaranteed. So start off the day with a boundlessly relaxing breakfast in bed!

simplifies comfortable dining directly off the tray.

# Delicacies in delicate setting – presentation boxes made by Zieher!

Due to the comprehensive range of accessories the small-sized box offers multiple application possibilities. The box, regularly fitted with a wooden sliding lid, can be equipped with several optionally available inserts made of top-quality solid surface material. The also available lid

presented goods in the limelight.

Apart from an insert with round cavities for nine truffles/chocolates and a flat plate that can be used for layered chocolates, various little somethings or amuse bouches, there is also an insert available for commercial coffee capsules.

made of brown-tinted glass puts the

The insert for cigars can hold up to four cigars and a separate compartment aside offers additional space for matches, cigar cutters, etc. No matter if it is an assortment of coffee specialities or various delicacies of the pâtisserie, the presentation box by Zieher provides the perfect setting for many purposes.

# **Extraordinary storage places ...**

# ... for extravagant guestrooms!

## **Bedded on glass**

This variant of the "Donna" pillow is made of frosted glass and despite its hard and massive raw material it surprises by its pleasantly soft and velvety feel.

The organic shape of this extraordinary piece offers an ideal presentation area for extravagantly staged intermediate courses or serves as a fancy place to keep all sorts of small objects of everyday life.

Even when used as a soap dish, the pillow cuts a good figure. A verison made of porcelain is available on page 142.

**glass pillow "Donna"** glass, satined, in black gift box

item | I x w x h in cm 5446.01PB | 16.5x11x3

## Bedded on wood

Made of solid wood, milled with dedication and refined with high quality oils!

This sculpture of solid walnut, one of the finest European varieties of wood, has its own appearance. The sealing with oils emphasises the striking grain of the wood and gives the surface a silk-matt gloss as well as amazing haptics.

One just has to touch the softly curved forms of this hand charmer. Whether used as a fruit bowl, as a place to keep accessories or as sculptural decoration - "Donna" seduces in every material!

The buffet bridges and trays of the "Podia" series offer several advantages! They are light but robust, flexibly usable and can be stored in a spacesaving way. With its use as a display on the buffet, during coffee break or as a platter for fruit or little somethings in the hotel room - "Podia" offers multiple possibilities for use and flexible handling. Three trays in GN formats (1/2, 1/3 and 2/8) are especially suitable for different miniatures made of porcelain and glass; slide-proof silicone coasters in different styles (page 210) guarantee a good grip during service. All parts of this series consist of form-glued authentic wood veneer, the bridges are available in two types of wood. The light version harmonizes very well with mundane but also with rustic-style furnishing, the version with the black-brown stripes appears exotic and modern.

The melamine tray "Slope" is characterised by its unobtrusive shaping and the pleasant feel of the matt and finely structured surface. An elevated corner and the resultant asymmetry award the tray that certain something.
Besides the obvious function as a service tray for espresso, cocktails, snacks and more it also performs well in the hotel bathroom or as a decorative trivet in the hotel room.

Item		Description		P	age
4734.04		saucer "Solid", walnut	117	7, 189,	253
4734.04		walnut connector "Squareline"	117	, 109,	16
4737		chocolate/truffle box "Solid"			246
4738		chocolate/truffle box "Solid"			246
4740		serving tray "Solid", walnut		109	256
4742		tray insert "Solid", walnut		103,	108
4741		grid insert "Solid", walnut			109
4743		tray insert "Solid", walnut			108
4744		cutlery insert "Solid", walnut			109
4745		tray insert "Solid", walnut			109
4746		tray stand "Solid", walnut			105
4747		connector piece "Solid", walnut			106
4748		tray stand/side table "Solid"			286
4749		ham holder "Solid", walnut			111
4760		bread basket/bowl "Solid", walnut		11/	250
4761		bread basket/bowl "Solid", walnut			250
4762.18		storage/presentation box "Solid"	2/1/	1, 288,	
4762.18G		•	244		289
4762.18G		glass lid storage/presentation box "Solid", v			288
		storage/presentation box "Solid", v			
4762.30			/ainu		288
4763.015		insert f. chocolate "Solid", black			289
4763.01W		insert f. chocolate "Solid", white			289
4763.025		insert f. cigars "Solid", black			289
4763.02W		insert f. cigars "Solid", white			289
4763.035		insert f. coffee capsules "Solid"			289
4763.03W		insert f. coffee capsules "Solid"			289
4763.04W		insert/platter "Solid", white			289
4766		cutlery/napkin box "Solid"			284

## **GENERAL CONDITIONS**

This catalogue is valid as of March 1st, 2017. Any catalogues and price lists issued previously become invalid as of that date. This catalogue is valid until February 28th, 2018. Misprints and errors excepted. Colour deviations from photographs reserved. All indications of sizes or measurements are approximate ones and subject to alterations. The respective general terms of sale and delivery of our foreign partners apply. For a list of our foreign partners, please consult: www.zieher.com. Changes on technical specifications and terms of delivery of the products are reserved and need explicit, written confirmation by Zieher or the respective Zieher business partner.

# **Individuality in glass ...**

Logos, letterings etc. can be put on the double walled glasses to give them an individual touch. Those are applied onto the outer side of the inner glass which ensures the protection from dirt and abrasion.

# Please ask us, we will gladly prepare an individual offer for you!

# Stainless steel refinement through PVD-technology

Highly polished and matt stainless steel can be refined by using PVD-technology to obtain golden, copper and black colouring.

PVD stands for **P**hysical **V**apour **D**eposition and describes a method to coat products with different materials by way of sputtering in a vacuum. Contrary to the galvanic refinement for example with copper, items refined by using PVD-technology will neither oxidise nor tarnish at the surface. Thus any copper refinement can be done without applying specific anti-tarnish protection.

The technical feasibility of the PVD-refinement depends on size and shape of the items and has to be checked individually mostly. Permanently available stainless steel items refined with gold and copper can be found on pages 9, 16 and 80.

# Advantages of the PVD-coating

- Food-safe
- Better strength and adherence compared to galvanic refinement
- Brilliant colouring, colourfast and resistant against UV radiation

stainless steel, polished

All information on refining china, glass and stainless steel can be found on pages 80 and 196.

The founders of the company Christa and Manfred Zieher with their sons Dominik and Oliver (on the right side). Dominik is responsible for the sale worldwide and Oliver for product developement and design. Daughter Jennifer (not pictured) is responsible for the controlling.
