THE PERFECT GLASS?

There are many demands for the perfect glass:  
Shape, **design**, brilliance, **stability**, capacity, **longevity**.  
It's not so easy!

But: **We've** put something together...

# THE IDEA

„Enjoyment has many forms, but the demands for a really good glass remain the same. That's why we've combined **functionality** with **timeless elegance**. And those are **qualities that last**, regardless of short-term trends.”

(Stephan Hinz)
