Go Green with La Tavola's see-through risers

The Mineral risers' interlayers are handcrafted in Nepal

Low-Impact Products

La Tavola's Organic and Mineral Risers have the added benefit of being made from a specially-formulated co-polyester resin that combines performance with environmental responsibility.

Eco-resin incorporates 40% pre-consumer recycled content without compromising aesthetics or overall physical properties, is compatible with one of the largest post-consumer recycling streams, and is GREENGUARD® Indoor Air Quality and Breeam Certified.

Our products bring to life handcrafted materials from artisans around the world.

La Tavola uses beautiful indigenous products customized for the production of the Riser's panels, encouraging the development of a sustainable market for the artisans and the communities to which they belong.

These materials are encapsulated in the Organic and Mineral Risers, creating modern design aesthetics.

Organic and Mineral Risers - Technical specifications and cleaning instructions

Organic Risers

Because the materials used are organic in nature (i.e leaves, branches and twigs) it is natural for them to alter slightly in appearance over time. Natural materials are also subject to inherent inconsistency in color, texture and shape. Slight delamination on saw cut edges is also to be expected.

Mineral Risers

The metallic interlayers (ie. copper, silver, gold) may alter slightly in appearance over time due to ageing of the metallic materials.

Cleaning instructions

Like all thermoplastic resin materials, the Organic and Mineral Risers should be cleaned periodically. A regular, seasonal cleaning program will dramatically help prevent noticeable weathering and build up of dirt. La Tavola recommends the use of common cleaning products such as: Windex, Formula 409, Simple Green, Fantastik, Virex, 10:1 Water/Bela H Solution.

Rinse the panels with lukewarm water (be careful not to expose edges of organic or fabric interlayers to water). Remove dust and dirt from the panels with a soft cloth or sponge and a solution of mild soap and/or liquid detergent in water. A 50:50 solution of isopropyl alcohol and water also works well. Rinse thoroughly with lukewarm water.

Always use a soft, damp cloth to blot dry. Rubbing with a dry cloth can scratch the material and create a static charge. Never use scrapers or squeegees on the Risers. Avoid scouring compounds, gasoline, benzene, acetone, carbon tetrachloride, de-icing fluids, lacquer thinner and other strong solvents.

WHO ARE WE ?

La Tavola is an Italian company that designs, manufactures and markets high-end tabletop items.

Our flatware patterns, modern holloware collection and classic silverware are coveted by hoteliers around the globe.

With the recent introduction of the Wonderbuffet®, La Tavola promises to revolutionize food presentation in a buffet setting.

THE FOUNDERS

Brothers Sergio and Giulio Sambonet, having been behind the success of other prominent industry players (the Sambonet Company, Sant'Andrea and Table Top Engineering & Design), now bring a lifetime of industry-specific experience to their new company, La Tavola. Today, Matteo represents the seventh generation of the Sambonet family still filled with passion for creating beautiful and innovative table top products.

THE TEAM

La Tavola's team includes skilled engineers, architects and artisans. We strive to achieve three objectives: to be at the forefront of innovation, the most stylish and the most thorough in service.

WORLDWIDE IMPACT

La Tavola provides in-loco service and assistance through its tightknit network of worldwide distribution partners.

ROOTS

La Tavola is a proud representative of Italian creativity, design and manufacturing.
